Office Action Summary

Art Unit: 2834

Claims 12-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims are vague and indefinite in that it is unclear what is meant by "cable patterns". A cable is a stand of wire or twisted wires, it is not certain how such a structure can be defined as having a pattern. Thus, the metes and bounds of these claims can not be determined.

Claims 1-11 are allowed.

Cited of interest are Novotny, Ngo and Zumeris.
